PROFILE SUMMARY

Data Analyst with hands-on experience in Python, SQL, and data visualization tools like Tableau and Excel. Skilled in transforming raw data into actionable insights through statistical analysis, predictive modeling, and dashboard creation. I consider myself a responsible and orderly person. I am looking forward to my first work experience.

PROJECTS

Starbucks: Power BI Dashboard

<https://github.com/shruti590/TOPS/tree/main/power%20bi/project>

- Created an Interactive dashboard to track and analyse Starbucks data.
- Used complex parameters to drill down in the worksheet and customization using filters and slicers.
- Used different types of customized visualization(Bar, Stacked, Line, Column, Pie, Donut charts etc).

Hospital Data : SQL

<https://github.com/shruti590/TOPS/tree/main/SQL/Project>

- Designed and implemented HospitalDB database using SQL to manage patients, doctors, appointments, etc.
- Created normalized tables, relationships, and constraints to ensure data accuracy and integrity.
- Developed SQL queries, JOINS, and Stored Procedures for patient records, billing and appointment reports.
